

About AMERIT – IT Consulting LLC

The firm was formed out of the adversity brought on by the recent economic situation. Our goal is to bring value to midsize companies by providing a “holistic” and “process centric” view of the client’s business to help navigate through the hard times and thrive in the good times. We identify cost-effective, innovative solutions that quickly add value to the client’s business.

Expertise

People are what make a company successful. At AMERIT - IT we have a staff of highly experienced and successful consultants. Each consultant with AMERIT – IT Consulting LLC has over 20 years of business experience with Fortune 500 corporations.

Collectively we offer our clients the depth and breadth of experience of a large consulting business, but on a smaller, more efficient scale to be more responsive to your immediate needs. Our expertise spans the following industries:

- Academia
- Aerospace
- Airline
- Automotive
- Banking
- Consumer Goods
- Finance
- Government
- Information Tech
- Marketing
- Manufacturing
- Pharmaceuticals
- R&D
- Training

A pessimist sees the difficulty in every opportunity; an optimist sees the opportunity in every difficulty.

- Winston Churchill

We’re optimists at AMERIT.

Maximizing your IT investments and operations by adopting and implementing IT management Best Practices.

*IT Best Practices
Project and Program Management
Management Consulting*

IT Best Practices

Keeping computer systems running at high availability is a priority for any business. It requires disciplined processes to proactively address issues before they arise, implement changes to the environment and to quickly address downtime when it occurs.

The consultants at AMERIT-IT Consulting have extensive experience implementing and managing IT Service Management processes.

The most widely used framework for IT service management is Information Technology Infrastructure Library (ITIL).

“ITIL® provides a cohesive set of best practice, drawn from the public and private sectors internationally.” www.itil-officialsite.com

Our ITIL-certified consultants have expertise in all ITIL V3 areas:

- Service Strategy (SS)
- Service Design (SD)
- Service Transition (ST)
- Service Operations (SO)
- Continual Service Improvement (CSI)

We work closely with our clients to understand existing processes and determine how best practices can maximize IT investment and improve operations.

Project and Program Management

Implementation of change can be very difficult. It takes perseverance and dedicated attention.

We have Project Management Professional (PMP) certified project managers who work with clients to determine the right balance of detail and discipline needed to effectively and affordably implement your projects.

Our project management methodology is based on the Project Management Institute (PMI) Project Management Body of Knowledge (PMBOK) and can be adapted to your needs.

AMERIT-IT Consulting
Intervention Approach

Management Consulting

In today's economy, every business is looking to improve efficiency. However, day-to-day operations require your full attention. Most companies don't have the luxury of fully dedicated process improvement staff. That's where AMERIT-IT Consulting can help.

Our focus is to help you improve the **effectiveness and efficiency** of your business.

Our business consulting services include:

Problem Analysis and Requirements Definition

- Roles, Responsibilities and Skills Analysis
- Organizational Effectiveness Analysis

Tactical Problem Resolution

- Crisis Management
- Technology Management Consulting

Strategic Solution Generation

- GAP Analysis
- Quality Management Consulting
- Business Process Re-engineering (BPR)
- Automation of Business Practices

Other Services

- Product Lifecycle Management (PLM)
- Activity Based Costing (ABC)
- Compliance Auditing

We work closely with our clients to clearly identify and quantify issues and to design solutions that are custom fit to their needs.
